Attn: **Silva, Djair**
        Alonso, Rubens

Djair Soares Silva recently attended an instructor led EBI/Fire Point Server Installation and Configuration class. The purpose of this letter is to provide specific information as a result of this training experience. Training is the beginning of a journey of knowledge and skill development; it is vital to successful job performance to implement the learning that took place in the classroom immediately upon return.

Listed below you will find **four information components**:

1. Skills based assessment ratings
2. Instructor comments
3. Student comments
4. Assessment results - from knowledge-based (written) and skills-based (practical) tests

Skills-based Self Assessment Ratings

Student/Instructor Rating of Skills	Student Rating	Instructor Rating
Scale for Assessment 3 Advanced Able to assist or guide others in the completion of the task 2 Intermediate Able to perform the task without guidance from another person 1 Basic Able to perform the task with guidance from another person 0 None Unable to complete the task		
Configure Windows for EBI Installation	3	3
Install EBI	3	3
Auto Program fire alarm panel	3	3
Configure FNA	3	3
Install FPS software	3	3
Build Fire Point Server	3	3
Create Quick Builder	3	3
Create Static Stations	3	3
Build FPS, FNA, Channel	3	3
Download a Quick Builder project to the EBI database	3	3
Achieve communications between a fire panel and EBI	3	3
Upload AutoDiscovered points	3	3
Rename and download AutoDiscovered Points	3	3
HMIWeb Display Builder – Create a custom display with the following:		3
An imported picture for a floor plan	3	3
A shape sequence representing detectors and modules	3	3
A button to link one display to another display	3	3
A script to link a display object to another display	2	3
Central Events Program with the following		2
Initiator Points	2	2
Command Points	2	2

Initiator point commands command point	2	2
Successfully Connected two servers via DSA	3	3
Successfully configured redundant servers	3	3

Instructor Comments

Djair used time very well and even helped others during the class. He is a quick learner and is ready to lead others in the EBI Life Safety Manager programming tasks.

Student Comments

All content of the course was transmitted very clearly; all information received will be very useful for field application.

Assessment Results

The following table summarizes your test results and how these compare with other students in your class.

Assessment	Student Score	Class Average
Knowledge-based Assessment	86%	Pass
Skills-based Assessment	3	Pass

Feel free to contact me if you have any questions or comments.

Sincerely,

Michael Carone   ☎   (518) 258-6650 (mobile)

Skills-based Self Assessment Ratings

Student/Instructor Rating of Skills **Scale for Assessment** 3 Advanced Able to assist or guide others in the completion of the task 2 Intermediate Able to perform the task without guidance from another person 1 Basic Able to perform the task with guidance from another person 0 None Unable to complete the task	**Student Rating**	**Instructor Rating**
Configure Workstation Setup Files	3	3
Create an Operator	3	3
Configure Responsibility Profiles	3	3
Describe the Purpose of the Facility Model's Role in Segregating Data	2	3
Configure Server-Wide Settings	2	3
Create Reports	2	2
Configure a Custom Report Utilizing Microsoft Report Builder	3	3
Explain the Differences Between ScanTask and FPS Points in EBI	2	2
Configure Point Groups	2	2
Configure Quick Lists	2	2
Configure Event Archiving	2	2
Modify Point Labels	2	3
Backup and Restore Using Acronis	2	2
XLS3000/140 Front Panel Operation	3	3

Instructor Comments

Djair used time very well and even helped other participants. He did great asking questions and

clarifying on some topics even though English is not his native language.

Student Comments

I already work with XLS140/3000 and EBI, this course was very useful for reviewing technical concepts and acquire new ones.

Assessment Results

The following table summarizes your test results and how these compare with other students in your class.

Assessment	Student Score	Class Average
Skills-based Assessment	90%	Pass
